SUMMARY

Final-year B.Tech (IT) student with strong problem-solving skills and proficiency in C++, Data Structures Algorithms. Experienced in web technologies including HTML, CSS, JavaScript, and React JS. Completed 500+ coding problems. Eager to apply technical knowledge to develop practical software solutions and grow further in the software development field.

EDUCATION

J.C. Bose University of Science and Technology, YMCA, Faridabad Faridabad, Haryana
B.Tech in Information Technology 2022 – 2026
CGPA: 7.67/10

PROJECTS

Access Pro (*React.js, Bootstrap, Spring Boot, MySQL, JWT*)

- Improved efficiency of employee data handling and project tracking by building a secure full-stack HRMS with role-based access.
- Implemented secure authentication and authorization using JWT, ensuring safe handling of sensitive employee data.
- Applied database optimization techniques in MySQL to handle employee records and queries efficiently.
- **Role:** Designed and developed the front-end interface using React.js and Bootstrap; implemented UI components and integrated them with backend APIs developed by a teammate in Spring Boot and MySQL.

Energy Conservation Using Computer Vision (*Python, OpenCV, NumPy, DNN, MobileNet SSD*)

- Implemented real-time human detection from webcam/external camera using a pre-trained MobileNet SSD deep learning model.
- Utilized OpenCV's DNN module for efficient loading and processing of frames to detect human figures.
- Applied computer vision techniques to enable energy conservation by triggering actions only when humans are detected.

SKILLS

- **Languages:** C/C++, Python, HTML/CSS, JavaScript
- **Frameworks & Libraries:** React.js, Bootstrap
- **Developer Tools:** Git, GitHub, VS Code
- **Databases:** MySQL
- **Computer Vision:** OpenCV, NumPy, DNN Module, MobileNet SSD
- **Operating Systems:** Windows, Linux
- **Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Computer Networks, Database Management Systems
- **Soft Skills:** Problem-Solving, Critical Thinking, Collaboration, Adaptability

ACHIEVEMENTS

- Earned **LeetCode 100-day Streak Badge** – consistent practice that deepened understanding of algorithms.
- Solved **500+ problems** across platforms like LeetCode, Coding Ninjas, and GeeksforGeeks.
- Completed **React JS course** from **Infosys Springboard**.

POSITIONS OF RESPONSIBILITY

- Active member of **NSS (National Service Scheme)**: Organized community service initiatives and participated in social awareness programs.
